STEP 3:

Go to Member Panel and click or view earning also you can check earning from admin panel.

Click on withdraw fund member Panel and withdraw the earning.

STEP 4:

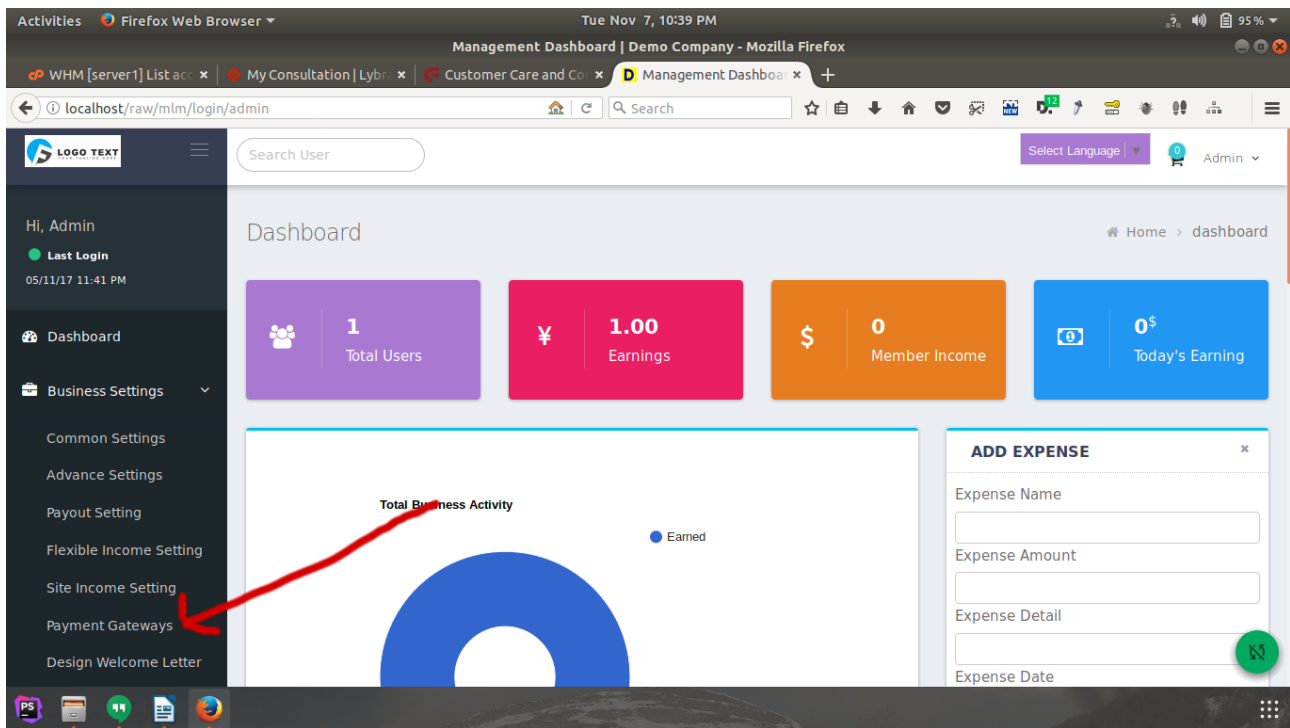

Admin can pay withdrawals from Income Section -> Pay Earnings.

WHAT IS e-PIN ?

E-PIN or electronic pin is a secret code that can be use to register new member or topup. If your registration is not free, user must have to pay registration fee using one of two methods : Payment Gateway or e-PIN.

TO SETUP PAYMENT GATEWAY:

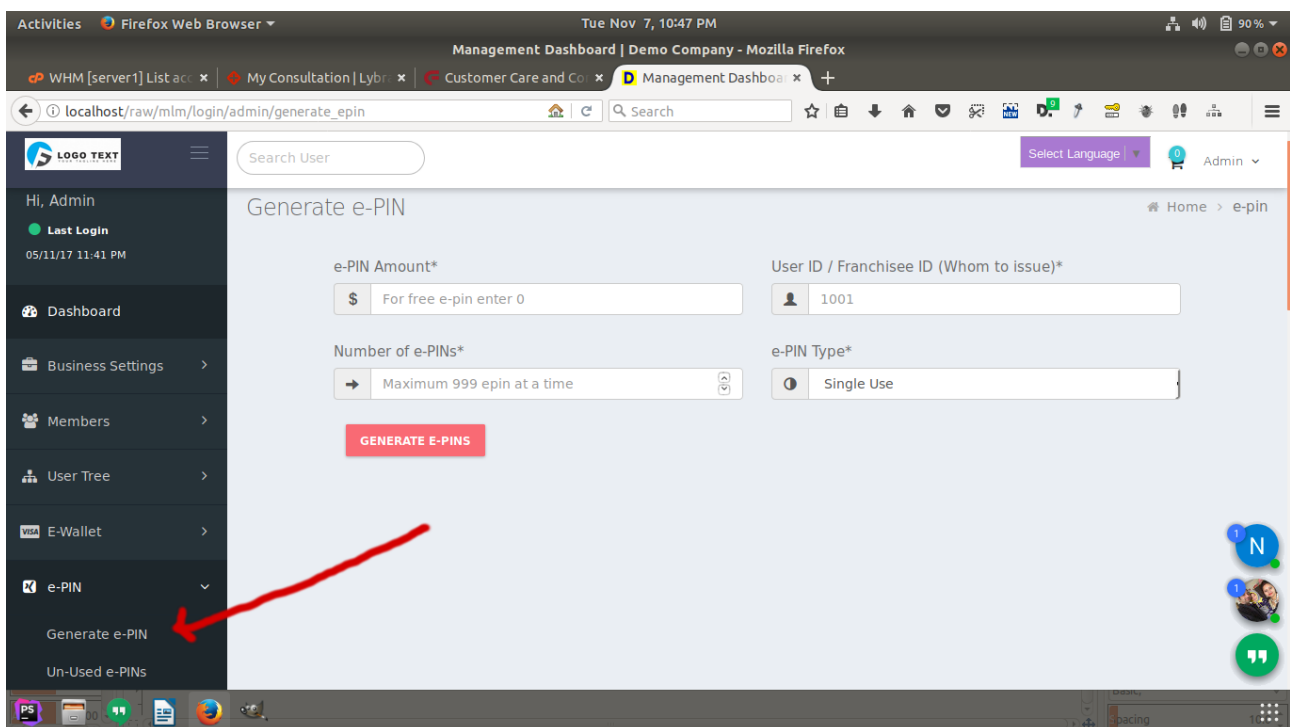

Go to Business Setup then Payment Gateway Setting and setup payment gateway as per your need.

TO SETUP e-PIN:

If you don't have payment gateway or want to use e-PIN, then you have to generate e-PIN. e-PIN amount must be same to Registration Fee + GST/Tax. Suppose your registration Fee is 100 and GST/Tax is 18 then total product price will be 118. So you have to generate e-PIN worth of 118 or more.

To generate e-PIN you can go to left side menu of admin then e-PIN section.

WHAT IS MULTIPLE USE e-PIN ?

Multiple use e-PIN is same as single use e-PIN just the difference is that you can use it multiple time until balance exhausts. For single use e-PIN, you can use it one time. For multiple use, you can use it multiple time until balance exhausts. Suppose you have a multiple use e-PIN of amount 1000 and you have joining fee of 100 then you can use the e-PIN to register upto 10 member.
